## **ABOUT OUR BEANS**

We use 100% Arabica Speciality coffee accredited (SCA) beans grown in Latin America and roasted by hand here in the UK with a lot of love and generations of expertise. We focus only on sustainable and ethically farmed beans, and ensure the farmers are paid a fair price to support local Latin American communities, our prices reflect this.

### **SEASONAL HOUSE BEAN**

Costa Rica, Tarrazu, El Canet

SCA: 85

Taste notes: Low acidity, creamy body, cherry finish with hints of orange peel throughout.

Farm: El Canet is a community within the San José region, comprising just 46 producing families with smallholder lots. Founded in 1960, Tarrazú is now accepted as one of the best groups in Costa Rica, and is still run by the farmers.

### **DECAF**

Peruvian 'Swiss-water' process decaf

SCA 83

Taste: Praline flavour.

Farm: The Alto Mayo Agricultural Coffee Cooperative is based in Peru and was started by a group of 15 people and now has grown to 943 associated families across 43 production areas in the San Martín and Cajamarca regions, allowing the community to regain control of their income and production, and remove their reliance on intermediaries.
